EDUCATION

Molinaroli College of Engineering and Computing, University of South Carolina

Columbia, SC

Bachelor of Science (B.S.) – May 2028

Major: Computer Information Systems; Minor: Business Information Management

- GPA: 3.8/4.0
- Honors: Dean's Scholar Fall 24, Spring 25, Fall 25, Spring 26
- Relevant Coursework: Data Structures and Algorithms, Software Engineering, Algorithmic Design I/II, Linux/Unix Fundamentals, Advanced Programming Techniques, Discrete Structures, Database System Design

SKILLS

- **Programming Languages:** Python, Java, C++, HTML/CSS, JavaScript
- **Frameworks/Applications:** GIT, AWS, React, Cursor, Vercel

PROFESSIONAL EXPERIENCE

The Team, Columbia, SC, AWS Student Builder Campus Leader, March 2026- Present

- Led outreach that drove over 500 students to sign up for AWS Builder Center resources through targeted peer networking and on-campus engagement.
- Presented in 14 classes and 4 student organizations, delivering tailored AWS overviews that increased interest in cloud learning pathways.
- Organized and staffed 4 high-traffic tabling events to promote AWS Builder Center, answer student questions, and funnel attendees into ongoing cloud learning opportunities.

Vereinigung Erzgebirge, Warminster, Pa Lifeguard, May 2023–Aug 2026

- Ensured the safety of 150+ swimmers daily as a lifeguard, resulting in zero incidents over two summers.
- Secured first aid and CPR certifications to safeguard the well-being of over 200 swim facility patrons.
- Optimized team coordination in crowded settings, achieving a 100% safety record across high-traffic shifts.

LEADERSHIP EXPERIENCE

CSIET Columbia, SC Member, Jan 2026–Present

- Attend weekly workshops and speaker events on software development and industry topics, and engage with professionals and alumni in computing-related fields.

Sigma Phi Epsilon, Columbia, SC Active Member Jan 2025–Present

- Participated in weekly meetings, the Balanced Man Program, community service, and participated in a 4-week-long professional development program.

PROJECTS

LOST Coding Helper (LeetCode-style practice platform)

- Collaborated in a Scrum team on a semester-long project, implementing sprint planning and presentations.
- Applied OOP and the Facade pattern to separate UI controllers from logic.
- Built the backend data system that saves and loads all the app data (i.e., user accounts, problems, and solutions) to JSON.
- Wrote and applied JUnit tests using Git/GitHub (branching, PRs, code review) for login, progress, and achievements.

ResumeIQ

- Built an AI-powered resume matching platform (Next.js, React, AWS, OpenAI) that provides the user with semantic analysis and feedback
- Integrated AWS cloud services (S3, RDS, PostgreSQL) for file storage and data persistence in the production environment
- Deployed full-stack application on Vercel with custom domain, implementing serverless architecture and RESTful APIs
